Final Programme

Upper Limb Trauma: why did my treatment fail?

09h00-10h20 Shoulder - Humerus

Moderators:

Olivier Cornu, Cliniques Universitaires St. Luc, UCL, Brussels

Guy Putzeys, AZ Groeninge, Kortrijk

- 09.00 Introduction
Olivier Cornu, president BOTA
- 09.05 Failed conservative treatment of clavicle fracture
Alexander Van Tongel, UZ Gent, Ghent
- 09.14 Failed operative treatment of clavicle fracture
Toon Claes, AZ Herentals, Herentals
- 09.23 Failed operative treatment of AC dislocation
Jennifer Stulko, CHR Citadelle, Liège
- 09.32 Discussion
- 09.37 Failed nailing proximal humerus fracture
Jan Van Oyen, AZ Damiaan, Ostend
- 09.46 Failed plate and screw osteosynthesis proximal humerus fracture
Karim Tribak, Cliniques Universitaires St. Luc, UCL, Brussels
- 09.55 Failed arthroplasty proximal humerus fracture
Bart Berghs, AZ St Jan, Bruges
- 10.04 Failed nailing midshaft humerus fracture
Willem-Jan Metsemakers, UZ Leuven, Leuven
- 10.13 Discussion
- 10.20-10.50 *Coffee break*

10h50-11h24 Elbow - Lower Arm

Moderators:

Roger van Riet, AZ Monica, Deurne & Antwerp
Frédéric Schuind, ULB Erasme, Brussels

- 10.50 Why did my elbow become stiff?
Ilse De Greef, UZ Leuven, Pellenberg
- 10.59 Why did my elbow become unstable?
*Kilian Wegeman, Universitätsklinikum
Köln, Cologne, Germany*
- 11.08 Why did it not unite?
*Roger van Riet, AZ Monica, Deurne &
Antwerp*
- 11.18 Discussion

11h24-12h04 Free paper session

Moderators:

Giorgi Calori, University of Milan, Milan, Italy
Kilian Wegeman, Universitätsklinikum Köln, Cologne,
Germany

- 11.24 Functional assessment after surgical
treatment of proximal humerus fractures by
variable angle-stable locking plates
*Feoline Luttgens-Wiemer, UMC Sint-Pieter,
Brussels*
- 11.30 Review of the use of intramedullary pin for
clavicle fractures; follow-up of ten years
Richard Witvrouw, ZOL, Genk

- 11.36 Fracture of the proximal humerus with disruption of the tendon of the pectoralis major
Lieven De Wilde, UZ Gent, Ghent
- 11.42 Cutout after locking plate fixation in a proximal humeral fracture in an osteoporotic patient
Ionut Caracudovici, UMC Sint-Pieter, Brussels
- 11.46 When a simple fracture goes wrong with a psychiatric patient
Christophe Marchal, CHIREC, Brussels
- 11.50 A case of radio-ulnar synostosis, and its complications
Yannick Goubau, UZ Gent, Ghent
- 11.54 Experience with bridging plates in the AZ Groeninge Hand Centre: functional range of motion with minimal disability
Paul Byttebier, AZ Groeninge, Kortrijk
- 12.00 Long axis CT-imaging of scafoïd fractures
Wim Vandesande, AZ Dimpna, Geel

12.05-13.30 Lunch

12.05-12.20 BOTA General Assembly

13h30-15h00 General

Moderators:

Alexander Van Tongel, UZ Gent, Ghent

Dan Putineanu, Cliniques Universitaires St. Luc, UCL, Brussels

13.30 Best Paper Prize

13.35 Patient at risk of failure: algorithm of treatment based on a new classification system
Giorgi Calori, University of Milan, Milan, Italy

- 14.05 Analysis of the demands of the Fund of Medical Accidents of lesions of the upper limb
Michel Van Der Haegen, RIZIV-INAMI
- 14.15 Care utilisation and costs associated with upper limb injuries after traffic accidents
Koen Putman, VUB, Brussels
- 14.25 Discussion
- 14.30 Impact of smoking and smoking cessation on upper limb trauma
Bihyga Salhi, UZ Gent, Ghent
- 14.40 Alcohol deprivation in trauma patient
Diedrik Demulder, CH Mouscron, Mouscron
- 14.50 Can CRPS be prevented in hand surgery?
Frédéric Schuind, ULB Erasme, Brussels
- 15.00-15.30 *Coffee break*

15h30-16h45 Wrist - Hand

Moderators:

Luc Van Overstraeten, Hand and Foot Surgery Unit, Tournai

Nadine Hollevoet, UZ Gent, Ghent

- 15.30 Phalanges fractures - New fixation methods with angel stable plates
Jeroen Vanhaecke, AZ Groeninge, Kortrijk
- 15.40 Rupture of the flexor pollicis longus tendon after volar plating of the distal radius: reconstruction with palmaris longus tendon interposition graft
Pieter Berger, ZOL, Genk
- 15.50 How to stay out of trouble when treating forearm fractures
Frederik Verstreken, AZ Monica, Deurne & Antwerp

- 16.00 Complications of distal radius fractures treated with a volar plate and locking screws
Nadine Hollevoet, UZ Gent, Ghent
- 16.10 Why modified Brunelli fails?
Luc De Smet, UZ Leuven, Pellenberg
- 16.20 What can go wrong during the reconstruction of complex lesions of the upper limb?
Olivier Barbier, Cliniques Universitaires St. Luc, UCL, Brussels
- 16.30 Ultrasonographic evaluating of the flexor tendons in function of volar plate positioning and pronator quadratus repair on cadaveric models
Chul Ki Goorens, Heilig Hart Tienen, Tienen
- 16.40 Closing Remarks
Alexander Van Tongel, Congress President
